

INTERNATIONAL EXHIBITION OF YARNS AND FIBRES
FOR WOVEN AND KNITTED FABRICS
FOR APPAREL, FURNISHING AND TECHNICAL TEXTILES

Quality, the real star at FILO

Dear exhibitors, dear journalists,

today and tomorrow we present a preview of the 42nd edition of FILO, the International fair of yarns and fibres, which will take place at Le Stelline Congress Centre in Milan (corso Magent 61) on 8 and 9 October 2014.

The press conferences held in Biella and Milan are two fundamental dates for us. First of all, because here we have the possibility to early welcome you to FILO, and also because they mark an important step on the road bringing us to the fair.

These two appointments give us the possibility to hear your requests, your needs and your suggestions. We, from our part, start raising the curtains on FILO, explaining the initiatives and novelties related to the event. They also represent the opportunity to preview the product development proposals: a true work instrument dedicated to all the operators in the textile-clothing sector.

However, the role of FILO on the global exhibition scene as the only *business-to-business* fair for top-level product range, is the result of an interaction between the companies' commitment to the production of increasingly innovative products, the participation of more and more qualified buyers, the attention from the media and our work aimed at making FILO an efficient "business platform".

If on the one hand, we are working to prepare a fair capable of efficiently meeting the companies' needs, on the other we are sure that the stands of the 42nd edition of FILO will display many interesting novelties, fruit of the research and innovation that have always characterized the companies taking part in the event.

And by restating this conviction, we give you today our warm welcome to FILO, waiting to see you on October 8 and 9, 2014 for its 42nd edition.

The secretary of FILO

Biella, June 23 2014
