The future of Fashion Comes from Filo

12.07.2013 — 7-8/2013 Juli/August — On the 9th and 10th October 2013 Filo, the international fair of yarns and fibres, will celebrate its twentieth anniversary with the 40th edition of the event.

It will be a “thrilling” edition with many surprises and novelties, fit for an important recurrence such as the twentieth anniversary. The theme of this Filo event must undoubtedly be “youth”, which is focussed directly on the future of the fashion system on the whole. However, this is always based on the irrefutable principle which is an essential characteristic of FILO: product excellence as the fruit of continuous research for quality and innovation.

Add it immediately to your agenda: 9th and 10th October 2013 we are expecting you at Filo– Le Stelline Congress Centre – corso Magenta 61 – Milan.
