FILO, a *fil rouge* between textile and food

Textile and food are the two most important sectors of *Made in Italy* which are recognized world wide.

FILO, the international exhibition of yarns and fibres, presents textiles and food together, thanks to the Food group of Unione Industriale Biellese which enriches the event with tastes from Biella.

There will be many different aspects in the 35th FILO edition together with yarns and fibres: "Biella da gustare" offering the best of food products of this area: special cheeses of Botalla and Caseificio Pier Luigi Rosso, meats from Gabba Salumi. In your glasses you can taste Menabrea beer, Lauretana bottled water and Centovigne wine (for red Coste della Sesia doc and for white Miranda based on the Erbaluce grape). To finish a good Sabib coffee.

In order to make the exhibiting area more comfortable, we have completely redesigned this edition onto one floor. Serralunga, who shares the values of FILO: tradition, quality and innovation capacity, will be putting some vases on display.

The 35th edition of FILO will be held on 15 and 16 March 2011 at Le Stelline Congress Centre – Corso Magenta 61 – 20123 Milan – Italy
