

# Filo Presents The 55th Edition On December 15, 2020

November 18, 2020    TEXTILE WORLD

BIELLA, Italy — November 18, 2020 — On Tuesday December 15, 2020 – at 10.30 am – Filo presents its 55th edition in a webinar.

In the first part of the online meeting, Mr. Paolo Monfermoso, general manager of Filo, will show operators the news about the February 2021 appointment. The second part of the meeting will be reserved to the product development proposals elaborated for the 55th edition of Filo by Mr. Gianni Bologna, Filo's creativity and style manager.

The presentation of the exhibition and the product development proposals will be the first stage of the path leading to the 55th edition of Filo, scheduled at MiCo – Milan Convention Centre – on the 24th and 25th of February 2021.

Filo has chosen to host the presentation of December 15 through a webinar, partly because of the many limitations related to health emergency, but especially because the online event highlights the new way to present the product development proposals, which includes live speeches and previously registered videos.

The theme for the 55th edition of Filo chosen by Mr. Gianni Bologna (responsible for Filo's creativity and style) is "Single tickets", using three key words: re-creating, re-thinking and re-starting.
