Filo Capsule Collection: A Journey Into The Textile Supply Chain

January 21, 2025

BIELLA, Italy— January 21, 2025 — Dobby loom for wool fabrics and menswear, jacquard pavilion loom for silk fabrics and womenswear; moulage technique to imagine the finished garment; to ennoble the fabrics there is the embroidery technique, for printing the three-dimensional effects of pigment ink jet, for finishing the most innovative treatments and for dyes the natural dyes with excellent fastness of resistance to washing and acid agents: the Filo Capsule Collection is an actual journey into the excellence of the textile manufacturing processes, and will make its debut at the 63rd edition of Filo on February 26 and 27, 2025.

Why do we talk about fabrics at Filo, the International Yarn and Fiber Exhibition? Because with the Filo Capsule Collection, Filo takes a step forward and showcases a series of fabric prototypes made with the exhibitors' yarns, dyed and refined with products made available by the dye houses that have long participated in the fair, creating that teamwork and unity of the textile supply chain that has always been hoped for and not always achieved. Filo is therefore the first fair to produce its own collection, to make the development potential of its exhibitors' excellent yarns effective and immediately visible.

The Filo Capsule Collection is an exclusive and innovative project, renowned for its characteristics of absolute novelty and exaltation of Italian manufacturing.

Filo Capsule Collection: The Starting Point

The Filo Capsule Collection comprises fabric prototypes made with the exhibitors' yarns. Which in turn find inspiration in "Collages", the product development proposals envisioned by Gianni Bologna for the 63rd edition of Filo and proposed by Filo in December 2024.

To better understand the stylistic concept that the Filo Capsule Collection expresses, "Collages" is the starting point, retracing with the fabric prototypes the four chapters that make up – precisely – the collages: Military Charme; Bio Pop; Vanity; Possibly.

The 63rd edition of Filo will take place on 26 and 27 February 2025 at Allianz MiCo – viale Eginardo GATE 3 – Milan.
